Summary

Frontend Developer skilled in React.js, Next.js, and TypeScript, with a focus on responsive interfaces and modern UI/UX tools (Framer Motion, GSAP). Certified in React and JavaScript, experienced in API integrations and Git. Passionate about writing clean code and contributing to team-driven projects, with hands-on experience building real-world applications.

Skills

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+) HTML5, CSS3, Responsive Design, UI/UX Design, Figma, Framer Motion, GSAP, TailwindCSS, Redux-Toolkit, Zustand/Context API, REST/GraphQL APIs, Jest, React Testing Library

Backend: Node.js, Express.js, RESTful API, API Integration, Axios/Fetch API, Postman (Testing), MongoDB, Mongoose (ODM), MySQL, SQL/NoSQL Databases, JSON Web Tokens (JWT), Authentication/Authorization, Environment Variables, Middleware

Development tools: Git, GitHub/GitLab, npm/yarn, Jest, Postman, Firebase, Heroku, Chrome DevTools,

Core Competencies: Team Collaboration, Time-Management, Agile Workflow, Problem-Solving, Proactive Communication

Certifications

- React.js Certification – HackerRank
- JavaScript (Advanced) Certification – Scaler, SoloLearn
- Problem Solving (Intermediate) Certification – HackerRank
- Java Certification – HackerRank

Languages

- English (Fluent)
- Hindi (Native)

Education

Bachelor of Computer applications

Maharshi Dayanand Saraswati University, Ajmer | Expected 2026

High Secondary

Govt. Senior Secondary School, Daulatgarh | 2019

Experience

Alt insight pvt. ltd.

November 2024 – December

- Developed user interfaces for an asset management web application using React.js.
- Integrated frontend components with backend APIs to display dynamic asset data.
- Gained exposure to full-stack development, collaborating with backend technologies such as Express.js and MySQL.
- Followed Git workflows for version control and participated in daily standups to align tasks in an Agile environment.

Projects

Rejoice awwards clone

[Live demo](#)

- Built a pixel-perfect, responsive clone using React.js, GSAP, Swiper.js, and Framer Motion, focusing on UI/UX precision.
- Implemented smooth animations, touch-enabled carousels, and interactive elements to replicate complex user interactions.
- Optimized performance by refining code structure and conducting cross-browser testing (Chrome, Firefox, Safari).
- Ensured mobile-first responsiveness using CSS Grid and media queries.

Otakumart E-commerce

[Live demo](#)

- Built a responsive UI with modular React components and mobile-first CSS for seamless cross-device experiences.
- Streamlined product browsing with intuitive navigation and organized static data workflows.
- Improved performance via code-splitting and optimized state management using Context API.
- Ensured cross-browser compatibility through testing and Git version control.

Tomato food service

[Live demo](#)

- Built a responsive food delivery app with React.js, Node.js/Express (REST API), MongoDB (database), and JWT authentication
- Integrated Stripe Payment Gateway for secure checkout, handling payment processing and order confirmation workflows.
- Implemented user authentication (login/signup), protected routes, and role-based access control (admin/user).
- Designed a dynamic menu system with CRUD operations (admin dashboard) and real-time order tracking.
